DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 5-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Jung (USPN 6,816,207).

Jung discloses a liquid crystal display, which is divided into multiple regions or blocks (see figures). A photoresist and mask are used to form the block regions or pixel areas. The substrate is divided up into light transmitting portions, which correspond to the light shielded portions of the mask. Different regions have differing angles and twists. (abstract, figures, col. 2-5, col. 10)

Response to Arguments

Applicant's arguments filed 8/1/05 have been fully considered but they are not persuasive. Applicant argues that Jung does not teach positioning of the mask, different positions or first and second exposures. The examiner respectfully disagrees because Jung aligns (positioning) the mask, which has light transmitting portions that correspond to first and second portions/regions. The mask is aligned over the liquid crystal polymer and has light transmitting portions and light shielding portions. (col. 4 & 6).

Conclusion.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
